## Summary

I'm a senior student at PTIT- Posts and Telecommunications Institute of Technology. My major is Information Technology. I have been learning web programming for more than 6 months and interned for a startup for 4 months. Currently, I'm quite familiar with HTML, CSS, JavaScript, ReactJS, NodeJS, Express with a few projects. My passion is learning new languages and technologies to solve life's problems. I like problem analysis, share my knowledge and help others.

## TECHNICAL SKILLS

- **Programming Languages** Java, C++ (I haven't used Java and C++ for a while). I think I can catch up with other languages when needed very fast.
- **Front-end Technologies** HTML/CSS/JavaScript, SCSS & ReactJS
- **Back-end Technologies** NodeJS, Express , MongoDB & Java Spring MVC
- **Development Tools/ Teamwork Tools** Git, VSCode.
- **Other**
  - Basic design skill with Figma.
  - Intermediate with design SQL Database.

## Projects

- MERN Project**  
**Story list application**
- This is a Full Stack MERN Application with React, Node.js, Express & MongoDB. The app is a simple social media app that allows users to post interesting events that happened in their lives
  - Link code: [https://github.com/TrongNhan30520/story\\_\\_list](https://github.com/TrongNhan30520/story__list)
  - Link demo: <https://www.youtube.com/watch?v=I5h2m-IPbG0>
- Realtime Chat**  
**Application**
- This is a Chat app with Direct and Group Chats, emojis & Reactions, Built-in Gif support, the ability to edit & delete messages, specialized commands, fully responsive, and much more. I'm going to use ReactJS on the front end, NodeJS on the back end and the entire chat is powered with Getstram.io
  - Link code: [https://github.com/TrongNhan30520/realtime\\_\\_chat](https://github.com/TrongNhan30520/realtime__chat)
  - Link demo: <https://www.youtube.com/watch?v=azaqAUB0sHI>
- Static Website**
- These are small project to practice using HTML, CSS and Javascript.
